

## Discover Effortless Patient Care with Model KY3-A8C200 A New Standard in Medical Transfer Innovation

Introducing Model KY3-A8C200: Elevate Patient Care with Our Advanced Electric Transfer System. Experience Seamless Shifts and Smart Features for Effortless, Safe, and Adaptive Patient Transfers.

### Automated Mobility

Fully automated vertical lifting, horizontal shifting, and effortless bed transfers without manual handling.

### Adaptive Control Center

Center of gravity adaptive system for stability, smooth adjustments, and automated operation via wired and wireless control options.

### Safety and Precision

Intelligent anti-tipping system, weight management for dosage calculation, and electric assistance for effortless and precise patient mobility.

## Technical Specifications

Explore the intricate details that make KY1-A8C200 a cutting-edge solution for seamless patient transfers, setting a new standard in medical technology.

Model	KY3-A-8C200
Bed Length	1920mm (75.59")
Bed Width	640mm (25.20")
Minimum Bed Height	600mm (23.62")
Maximum Bed Height	800mm (31.50")
Dimensions (L x W x H)	2000mm x 870mm x 1800mm
Vertical Lifting Range	300mm (11.81")
Horizontal Shifting Range	800mm (31.50")
Safe Load Capacity	200kg (440.92 lbs)
Charging Voltage	100-240VAC 50/60Hz

Displacement System

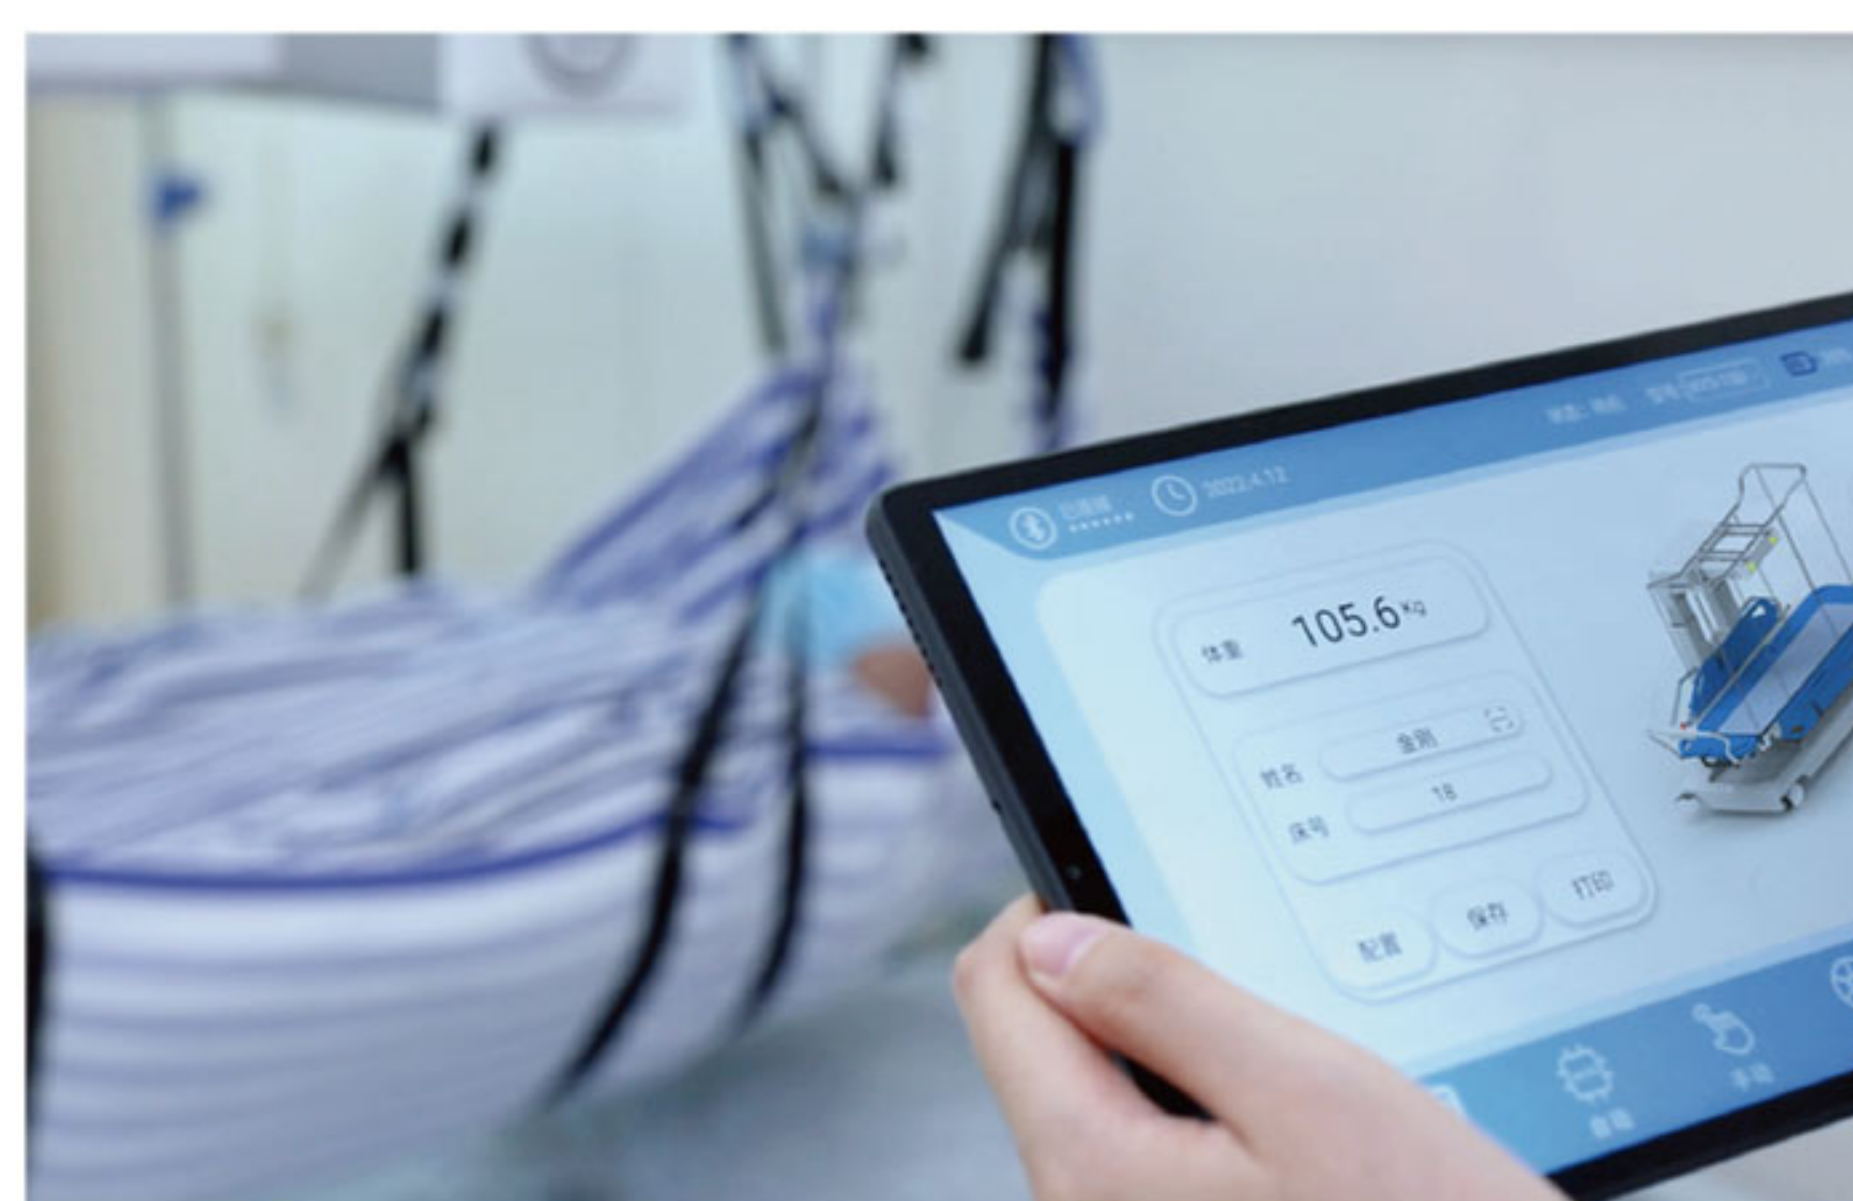

Gravity Adaptation

Automated Operation

Anti-Tipping System

Weight Management

Platform Flexibility

## Optional Accessories

Disposable Medical

Modular Stretcher①

Spinal Sling②

Disposable  
Positioning Pad Cover

Folding Transfer Pad③

### ★ ①Modular Stretcher (Carbon Fiber Zipper Style)

The modular stretcher is a reusable sling, combining a zipper and an extendable rod to maintain rapid assembly and disassembly features. It is suitable for specific groups with special needs such as fractures and postoperative care to prevent body compression and enhance comfort.

### ★ ②Spinal Sling(Requires Additional Spinal Sling Board)

Primarily designed for post-lumbar surgery and patients with special requirements; it prevents body posture deformities and mitigates secondary injuries.

### ★ ③Folding Transfer Pad

Tailored for patients with specific needs, such as lumbar injuries or postoperative care, to prevent body compression and enhance comfort.
